

AnyCam 3.7.0-rc2.0 Audit Report

Release audit - 05 October 2026 - page changes from the field test - tag 3.7.0-rc2.0

Scope confirmed by CrystalHeeler on 2026-10-05: the four Ready items from the 3.7.0-rc1.0 field test, B28, C22, C24 and D4, as 3.7.0-rc2.0. Page changes only; no server behaviour changes. Not field-tested.

Changes

#	Change
C22	The zone window has a title bar: drag it to move the window, press ■ to fold the window to the title bar. The window stays on the screen. The place and the fold are kept in the browser's own storage (localStorage, read and written in try/catch), so each device keeps its own.
D4	While a card is dragged, a 4 px line in the gap before or after the target card shows where it lands. Cards in one column (a phone held upright) get a level line, judged by the upper or lower half of the card; side by side, an upright line by the left or right half. The lit card side is gone.
C24	The page says Remote Storage for the buttons, the dialog title, the help text and the messages. The add-on log keeps Upload.
B28	Cause: the rule .modal input {width:100%} also made the checkbox full width. A checkbox in a dialog label now keeps its own size. The text is shorter: "Delete the local copy after upload".

Tests run

Suite	Result	Scope
Release gate	PASS	Eight gates; 17 files.
Python integration	PASS	572 of 572; 4 new in section AI; Q4 now expects Remote Storage.
JavaScript behaviour	PASS	166 of 166; new section C22 and D4 checks in the card-order section.
Not run	NOTED	No field test. The changes were not seen in a browser: the page needs the add-on running to draw these parts.

Best-practices compliance

Measured against *docs/AnyCam_Coding_Best_Practices.md*. Rows this change touches; the rest carry from the 3.7.0-rc1.0 audit.

Standard	Check applied	Result	Note
2.x JavaScript	Events	PASS	Pointer capture; handlers removed at the end of a drag.
4.x CSS	Specificity	PASS	The checkbox rule is scoped to dialog labels; touch-action none on the title bar only.
1.18 Testing	New tests	PASS	4 server and 9 page checks.

Standard	Check applied	Result	Note
Rule 9 (privacy)	New text	PASS	No names or addresses.

Known issues carried forward

- **B27:** Enhanced View is black for a few seconds after a return to the page; waits for a log.
- **C23:** the Storage tab hides the file names on a phone held upright; part of the revamp.
- **C25:** a better on/off design for Remote Storage.
- **B11:** hardware decode fix waits for the start-up log.

Files changed

File	Change
page_script.py	Zone window drag and fold; the drop line; Remote Storage text.
anycam_page.py	Title bar, fold button, drop line element, checkbox CSS, Remote Storage text.
tests/	Section A1; page sections C22 and D4; Q4.
CHANGELOG.md, config.yaml, camera_discovery.py, docs	3.7.0-rc2.0; build plan.
