

AnyCam 3.7.5 Audit Report

Release audit - 10 October 2026 - tag 3.7.5 - the 3.7.5-rc2.0 code released

Scope confirmed by CrystalHeeler on 2026-10-10: 3.7.5 is the 3.7.5-rc2.0 code with only the version changed, released as it is, then pushed and published. It carries everything since the last published version, 3.7.0: 3.7.1 to 3.7.4, 3.7.5-rc1.0 and 3.7.5-rc2.0. Each of those builds has its own audit report in docs/audits/.

Changes in this build

#	Change
Version	3.7.5-rc2.0 to 3.7.5 in camera_discovery.py, config.yaml and the CHANGELOG.md heading.
Changelog	One 3.7.5 entry summarizing the user-visible changes since 3.7.0.
Build plan	3.7.5 published; next build 3.8.0-rc1.0 with B54 only.
Code	No other change.

Tests run

Suite	Result	Scope
Release gate	PASS	Eight gates, run before and after the version change.
Python integration	PASS	666 of 666.
JavaScript behaviour	PASS	193 of 193.
Not run	NOTED	No field test of 3.7.5-rc2.0 or 3.7.5: CrystalHeeler chose to release as it is. The ffmpeg copy is untested on an unlocked Microseven camera. 3.7.5-rc1.0 was installed in the field (Quality Switch report, 2026-10-08).

Best-practices compliance

Measured against *docs/AnyCam_Coding_Best_Practices.md*. This build changes only the version and the changelog, so the code rows carry from the 3.7.5-rc1.0 and 3.7.5-rc2.0 audits.

Standard	Check applied	Result	Note
6.3 Version control	Version in every place	PASS	Gate 4 and gate 5: code, manifest and changelog agree on 3.7.5.
6.2 Dependencies	Build inputs exist	PASS	Gate 7: apt pins, wheels, go2rtc digests.
1.18 Testing	Full suite	PASS	666 server and 193 page checks.
Rule 9 (privacy)	New text	PASS	Changelog and notes name devices by role only.

Known issues

- **Microseven:** the ffmpeg copy is untested on an unlocked Microseven camera.
- **B48:** go2rtc's local RTSP server does not ask local programs for a password.
- **B33:** one Amcrest camera can get two cards.

Files changed

File	Change
camera_discovery.py, config.yaml	Version 3.7.5.
CHANGELOG.md	3.7.5 entry.
docs/BUILD_PLAN.md, docs/BUILD_PLAN.html	Release state; next build.
